PARTIAL DIFFERENTIAL EQUATIONS		
A Boundary-Value Problem for a Degenerate Hyperbolic Equation and Singular Integral Equations of the Third Order – Kh. G. Bzhikhatlov	1	3
The First Boundary-Value Problem for Certain Strongly Elliptic Systems of Equations, Degenerate on the Boundary – V. N. Vragov	12	15
Some Boundary-Value Problems for a Degenerate Second-Order Hyperbolic Equation – V. A. Eleev	21	25
The Uniqueness of a Solution of the Converse Exterior Contact Problem in Logarithmic-Potential Theory – V. M. Isakov	29	34
Asymptotic Properties of Solutions of a Mixed Problem – Yu. Ka. Kim	34	40
Darboux's Problem for Degenerate Hyperbolic Equations – A. M. Nakhushev	41	49
A. V. Bitsadze's Problem for an Equation of Mixed Type in Multidimensional Regions – A. M. Nakhushev and V. I. Pashovskii	48	57
The Exterior Dirichlet and Neumann Problems for a Multiharmonic Equation – V. I. Polovinkin	54	64
A Quasilinear Parabolic Equation – S. I. Pokhozhaev	61	73
A Method of Expanding a Three-Dimensional Ultra-Harmonic Potential in a Series of Integral Powers – A. I. Prilepko	67	81
Mixed Inverse Problems in Potential Theory for Contact Bodies – A. I. Prilepko	78	94
The Asymptotic Behavior for $t \to \infty$ of a Positive Solution of a Boundary-Value Problem for an Equation Modelling a Chemical-Kinetics Problem – V. V. Pukhnachev	90	109
Properties of Solutions of Mixed Problems for Quasilinear Parabolic Equations – É. N. Rudenko	95	115
Dirichlet's Problem for an A. V. Bitsadze Elliptic System with Lower Order Derivatives – R. S. Saks	100	121
The Spectrum of an Operator – M. V. Fokin	112	135
The Representation of Analytic Solutions of Certain Partial Differential Equations with Coefficients having Pole-Type Singularities with Respect to One Argument – V. Kh. Froim	118	142
Generalized Fourier Transforms and the Asymptotic Properties of Solutions of the Telegraph Equation – A. B. Shabat	130	157
Dirichlet's Problem for Degenerate Elliptic Equations – A. Yanushauskas	137	166
BRIEF COMMUNICATIONS		
A Boundary-Value Problem with Linear Boundary Values with Discontinuities – Yu. A. Dubinskii and B. P. Nesterov	144	175
A Criterion for the Uniqueness of a Solution of Darboux's Problem for a Degenerate Hyperbolic Equation – T. Sh. Kal'menov	147	178
Uniqueness of a Strong Solution of the Generalized Tricomi Problem – V. V. Kovrizhkin	151	182

Volume 7, Number 2 February, 1971

Nikolai Ivanovich Muskhelishvili (On his Eightieth Birthday) – A. V. Bitsadze, I. N. Vekua, N. P. Erugin, V. D. Kupradze, and A. N. Tikhonov 157 195

ORDINARY DIFFERENTIAL EQUATIONS

The Asymptotic Representation of Solutions of a System of Two Differential Equations – E. I. Grudo 158 196

Oscillation of Solutions of Second-Order Differential Equations – Yu. I. Domshlak 165 205

Some Functional Methods in the Theory of Almost-Periodic Solutions. I – V. V. Zhikov 172 215

Sufficient Conditions for a Dynamic System to Have Limit Cycles – I. A. Konvalov 180 226

Exponential Solutions of Cauchy's Problem with a Fixed Operator – G. I. Laptev 184 232

Representations in Terms of Eigenfunctions of a Second-Order Differential Equation with One Reversal Point – O. F. Mikulina 193 244

The Coarseness of a Sequence of Linear Systems of Second-Order Differential Equations with Periodic Coefficients – V. A. Pliss 205 261

Inequalities for Solutions of Certain Systems of Differential Equations with Large Time-Lag – V. I. Rozhkov and A. M. Popov 213 271

Qualitative Behavior of Orbits of a Class of Differential Systems – A. I. Yablonskii . . . 219 279

PARTIAL DIFFERENTIAL EQUATIONS

Expansion in Eigenfunctions of Schrödinger's Operator – Sh. A. Alimov 224 286

Stabilization of Solutions of Cauchy's Problem for a Parabolic Equation – A. K. Gushchin and V. P. Mikhailov 232 297

Gevrey's Theory for Parabolic Potentials. I – L. I. Kamynin 243 312

Stabilization of Solutions of a Boundary-Value Problem for a Fourth Order Parabolic Equation – D. V. Proka 255 329

Optimal Approximation Methods for the Solution of Linear Problems – V. D. Charushnikov 265 344

BRIEF COMMUNICATIONS

Transformations of Ordinary Nonlinear Differential Equations – L. M. Berkovich 272 353

Approximate Solution of Singular Integro-Differential Equations by Averaging Functional Corrections – V. G. Ivanitskii 276 357

The Isochronism of a Differential-Equation System – Z. M. Kochetova 278 359

Perturbations under which Stability is Maintained – G. S. Krechetov 281 363

Bilateral-Attraction Sets – N. N. Ladis 283 365

Calculation of a Quadratic Functional in a Special Case – E. M. Markushin 286 368

Evaluation of Quadratic Functionals for Systems with Time-Lag – E. M. Markushin . . . 287 369

Necessary and Sufficient Conditions for the Realizability of the Limit-Amplitude Principle – A. G. Ramm 289 371

Expansion in Eigenfunctions of a Linear Operator – V. G. Khryptun 291 373

Linear Nonseparable Transformations and the Hall Effect – M. S. Shneerson and N. F. Kudryashova 294 376

ERRATA 296 378

Volume 7, Number 3 March, 1971

REVIEW ARTICLES

Linear Systems of Ordinary Differential Equations – V. M. Millionshchikov 297 387

ORDINARY DIFFERENTIAL EQUATIONS

Optimal Processes in Linear Systems not Satisfying the Nondegeneracy Condition – S. Daiovich 300 391

	Engl./Russ.	
Boundedness of Solutions of a Class of Differential-Difference Equations with Time-Lag – A. I. Dashevskii	304	397
A System of Three Differential Equations with a Functional Parameter – N. A. Zboichik	314	409
Structural Stability of Some Differential-Equation Systems – N. N. Ladis	322	419
A Model Example of the Pursuit-Problem Game with Incomplete Information. I – V. S. Patsko	326	424
Deviation from Coincidence in Linear Differential Games – L. S. Pontryagin and E. F. Mishchenko	335	436
Periodic Solutions of Autonomous Systems of Equations of Neutral Type with a Small Time-Lag – V. I. Rozhkov	343	446
Synthesis and Analysis of a Fourth-Order Control System by the Phase-Plane Method – L. S. Cherbykin	349	453
Classification of Integral Manifolds of a Homogeneous Three-Dimensional System According to the Structure of Limit Sets – Sh. R. Sharipov	355	461
PARTIAL DIFFERENTIAL EQUATIONS		
Conjugation of a Hyperbolic and a Parabolic Equation System – S. I. Gaiduk	364	471
The Representation of Functions of Two Variables by Differentiable Fourier Series in the Solution of Partial Differential Equations – V. M. Darevskii	376	486
Three Approaches to the Solution of Generalized Dirichlet and Neumann Problems for Second-Order Elliptiptic Equations – V. S. Rogozhin and S. P. Danko	387	501
Stable Methods of Summing Fourier Series – G. I. Furletov	394	510
Bounded, Periodic, and Almost Periodic Solutions of Elliptic Equations – I. I. Shmulev	401	519
BRIEF COMMUNICATIONS		
An Integral Process for the Solution of a Boundary-Value Problem – G. F. Aliev	410	530
Localization of Expansions in Eigenfunctions of a Self-Adjoint Elliptic Operator – Sh. A. Alimov	413	534
Relay Stabilization of Programmed Motion – V. S. Antonchik and E. Ya. Smirnov	416	538
Limit Cycles of a Pendulum System Subjected to an Impulsive Disturbance – B. S. Kalitin	418	540
Stability of a System of Differential Equations with Time-Lag – Kh. Yu. Kurdanov	421	543
M. V. Keldysh Series – Yu. K. Lando	423	545
Calderon–Zygmund Singular Integral Operators on Classes of Functions with Given Rates of Decrease at Infinity – T. A. Makanina	427	549
SOVIET SCIENTISTS		
Ivan Georgievich Petrovskii (On His Seventieth Birthday) – S. L. Sobolev, S. A. Galpern, and E. M. Landis	430	553
BOOK REVIEWS		
The First Complete History of Soviet Mathematics – Yu. S. Bogdanov and E. A. Ivanov	440	565

Volume 7, Number 4 April, 1971

ORDINARY DIFFERENTIAL EQUATIONS		
Generalized Regular Systems – B. F. Bylov	443	575
Conditions for the Applicability of Chaplygin's Theorem to a Multipoint Linear Difference Boundary-Value Problem of the n-th Order – G. V. Gusel'nikova	456	592
Asymptotic Series for Eigenvalues and Eigenfunctions of Self-Adjoint Second-Order Operators – G. V. Zhdanova	465	603
Asymptotic Stability of Sets in Dispersive Dynamic Systems – M. S. Izman	474	615
A Second-Order Dynamic System with a Given Particular Integral – L. S. Lavrinovich	479	622
Perfectly Observable Systems – M. S. Nikol'skii	486	631

	Engl.	Russ.
Periodic Solutions of Systems of General Linear Equations with a Deviating Argument – V. R. Nosov	492	639
Properties of Solutions of a Sequence of Second-Order Periodic Systems with Small Nonlinearities – V. A. Pliss	501	651
PARTIAL DIFFERENTIAL EQUATIONS		
The Third Exterior Boundary-Value Problem for a Second-Order Elliptic Equation – I. A. Danilova	509	661
Conditions for the Convergence of Expansions Corresponding to Self-Adjoint Extensions of Elliptic Operators. I. A Self-Adjoint Extension of the Laplace Operator with a Point Spectrum – V. A. Il'in and Sh. A. Alimov	516	670
Gevrey's Theory for Parabolic Potentials. II – L. I. Kamynin	544	711
Closure in the Metric of a Generalized Dirichlet Integral – S. A. Laptev	557	727
Expansions in Eigenfunctions of an Exterior Boundary-Value Problem for a Nonselfadjoint Differential Operator – A. G. Ramm	565	737
BRIEF COMMUNICATIONS		
The Order of Convergence of the Least-Squares Method for Dirichlet's Problem – L. A. Boziev	570	743
Behavior of Solutions of Systems of Two Differential Equations in the Neighborhood of an Essential Singularity – S. G. Kondratenya	573	747
The Conjugacy of Some Nonstationary Differential Equations of Order 2m – V. I. Korzyuk	576	750
The Stability Coefficients of Solutions of Ordinary Second-Order Differential Equations and Parabolic Equations in the Plane – P. K. Senatorov	580	754
A Homogeneous Scattering Problem in a Quasiclassical Approximation – S. G. Simonyan	584	759

Volume 7, Number 5 May, 1971

ORDINARY DIFFERENTIAL EQUATIONS		
The Representation of Solutions of a System of Differential Equations with Periodic Coefficients – É. I. Grudo	589	771
Separatrices and Limit Cycles of Certain Differential Equations – L. I. Zhilevich	597	782
The General Form of Linear Equations. I – S. T. Zavalishchin	603	791
The Influence of Strong Dynamic Perturbations on the Properties of Solutions of Autonomous Linear Differential Systems – N. A. Zboichik	609	798
Nonzero Solutions of Boundary-Value Problems – V. S. Klimov	616	807
A Qualitative Study of First-Order Differential-Operator Equations of Stable Type with Time-Lag – V. G. Limanskii	622	814
The Existence of a Value for a Pursuit Game – N. N. Petrov	632	827
A Variant of a Lemma Concerning Closure – V. A. Pliss	642	840
PARTIAL DIFFERENTIAL EQUATIONS		
Conditions for the Convergence of Spectral Expansions Corresponding to Self-Adjoint Extensions of Elliptic Operators. II. Self-Adjoint Extensions of Laplace's Operator with Arbitrary Spectra – Sh. A. Alimov and V. A. Il'in	651	851
A Class of Second-Order Nonlinear Differential Equations – V. V. Babikov	671	883
Diffraction of the Field of a Magnetic Dipole at Two Coaxial Circular Disks. I – E. A. Ivanov and A. A. Karpuk	678	892
FINITE DIFFERENCE EQUATIONS		
Regular Linear Difference Systems – V. B. Demidovich	686	902
A Fundamental Theorem Concerning Critical Cases of Difference Systems – S. N. Shimanov and N. I. Kazeeva	693	910

Engl./Russ.

BRIEF COMMUNICATIONS

An Integro-Differential Equation with a Small Parameter Multiplying the Derivative in the Case when the Degenerate Equation is on a Spectrum – V. F. Butuzov 700 919

Criteria for the Stability of Solutions of Equations Not Solvable for Their Highest Derivative – I. V. Gaishun 704 923

Oscillation of Solutions of a High-Order Nonlinear Equation – I. V. Kamenev 707 927

Zeros of Oscillatory Solutions of the Equation $x'' + a(t)f(x) = 0$ – A. G. Katranov 710 930

Asymptotic Estimates of the Green's Function of Singularly Perturbed Differential Operators with Almost Periodic Coefficients – T. Sabirov 714 934

Criteria for Uniform Asymptotic Stability with Respect to a Nonautonomous Homogeneous Approximation of Order $m \geq 1$ – A. A. Shestakov 717 937

Konstantin Petrovich Persidskii 721 941

Volume 7, Number 6 June, 1971

ORDINARY DIFFERENTIAL EQUATIONS

Stability of Solutions of a System of Linear Second-Order Differential Equations with Periodic Coefficients – K. G. Valeev and M. Ya. Vazhgovskaya 723 955

Oscillatory Properties of Solutions of Vector Differential Equations – Yu. I. Domshlak 728 961

The Asymptotic Expansion of Solutions of the Equation $y^{IV} + (\lambda + \xi^2)y^{II} + \mu y = 0$ for Large Values of ξ – N. S. Erokhin 735 970

A General Form for Linear Equations. II – S. T. Zavalishchin 743 981

An Improved Estimate in the Freezing Method for a Two-Dimensional System with Coincident Characteristic Numbers – N. A. Izobov 749 990

Oscillations in Some Essentially Nonlinear Systems – K. K. Kammatov 754 997

Periodic Solutions of Second- and Third-Order Linear Systems – L. V. Trigubovich .. 761 1007

Stabilization of Nonstationary Linear Systems with Discrete Control – A. G. Cheremenskii 765 1012

PARTIAL DIFFERENTIAL EQUATIONS

Goursat's Problem for Abstract Second-Order Linear Differential Equations – N. I. Brish and N. I. Yurchuk 770 1017

The Diffraction of the Radiation Field of a Displaced Magnetic Dipole at Two Coaxial Circular Disks. II – E. A. Ivanov and A. A. Karpuk 780 1031

Conditions for the Convergence of Spectral Expansions Corresponding to Self-Adjoint Extensions of Elliptic Operators. III. Best-Possible Local Bounds of Riesz Means for an Arbitrary Function of $L_2(G)$ for a Self-Adjoint Extension of Laplace's Operator – V. A. Il'in 784 1036

Radial Transformation Operators – M. B. Kapilevich 788 1042

Some Boundary-Value Problems for Singular Elliptic Integrodifferential Equations in Two-Dimensional Regions – A. A. Kuleshov 799 1057

Application of the Contour-Integration Method in the Solution of a Mixed Problem for a Parabolic System with Variable Coefficients– N. M. Mamedov 805 1065

The Theory of Malyuzhinets Functional Equations. III. Inhomogeneous Functional Equations. General Theory – A. A. Tuzhilin 815 1077

The First Boundary-Value Problem for an Ultraparabolic Equation – Ya. I. Shatyro... 824 1089

INTEGRODIFFERENTIAL AND INTEGRAL EQUATIONS

Asymptotic Estimates of Solutions of a Class of Nonlinear Integrodifferential Equations – Yu. A. Ved' 830 1097

The Generalized Solution of an Equation with a Discontinuous Operator – L. N. Lyapin . 839 1108

BRIEF COMMUNICATIONS

Reducibility of Certain Linear Differential Systems – M. V. Zaretskii 844 1114

Sign-Constant Solutions of Equations of Neutral Type – V. B. Kolmanovskii 846 1116

	Engl.	Russ.
The Continuous Dependence of a Solution of an Optimal-Control Problem with a Free Time for Initial Data – V. I. Korobov	850	1120
The Second Painleve Equation – N. A. Lukashevich	853	1124
Integral Curves of a Homogeneous Equation in the Large on the Whole Plane – B. A. Razzakova	855	1126
Uniqueness and Continuous Dependence on Initial Conditions of Solutions of Certain Systems with Transformed Arguments – V. P. Skripnik	857	1128
Integral Equations with Deviating Arguments – V. P. Skripnik	859	1130
Asymptotic Behavior of the Solution of a Quasilinear System of Volterra Integral Equations with Constant Time-Lag – Yu. N. Smolin	861	1133
Solutions of Painleve's Second Equation Continuable to the Whole Real Axis – A. I. Yablonskii	863	1135

Volume 7, Number 7 July, 1971

ORDINARY DIFFERENTIAL EQUATIONS

Zeros of Solutions of a Second-Order Linear Differential Equation with Time-Lag – N. V. Azbelev	865	1147
The Boundary-Condition Function and Estimates of Green's Function for a Periodic Problem – M. I. Alekseenko and A. Ya. Khokhryakov	874	1158
The Approach of Quasilinear Objects in the Regular Case – É. G. Al'brekht	884	1171
Improvement of and the Attainment of Equality in an Inequality for the Highest Index in the Freezing Method – N. A. Izobov	890	1179
Complete Controllability of Linear Differential-Equation Systems with Time-Lag – S. A. Minyuk	900	1192
The Location of Separatrices of Periodic Saddle-Point Motion of Systems of Second-Order Differential Equations – V. A. Pliss	906	1199

PARTIAL DIFFERENTIAL EQUATIONS

A Boundary-Value Problem for an Elliptic System – V. S. Vinogradov	928	1226
Radial-Type Relations between Solutions of Differential Equations – M. B. Kapilevich	935	1235
The "Resonance" Representation of Solutions of a First-Order Hyperbolic System in the Plane – B. L. Kogan	947	1250
Solution of One-Dimensional Problems for Second-Order Parabolic Systems in Unbounded Regions – M. L. Rasulov and Yu. A. Mamedov	958	1263
The Theory of Malyuzhinets Functional Equations. IV. Inhomogeneous Functional Equations with Periodic Coefficients – A. A. Tuzhilin	968	1276
Differential Properties of Extremals of Quadratic Functionals with Discontinuous Coefficients – G. N. Yakovlev	977	1288

INTEGRODIFFERENTIAL AND INTEGRAL EQUATIONS

Eigenfunctions of the Hammerstein Operator – P. P. Zabreiko and A. I. Povolotskii	982	1294
The Approximate Solution of Cauchy's Problem for Fredholm Linear Integrodifferential Equations by the Method of Functional-Correction Averaging – B. G. Mosolov	991	1305

BRIEF COMMUNICATIONS

A Method of Calculating Approximate Solutions for a First-Order Differential Equation – I. I. Bezvershenko	999	1315
Control of Rotational Motion – V. I. Zubov	1003	1320
Potentials for One Type of Higher-Order Elliptic Equation – I. G. Lobodzinskaya	1006	1323
The Convergence of Certain Nonlinear Equations of the Third Order – I. E. Makeeva	1010	1327
Properties of Solutions of a Second-Order Nonlinear Differential Equation of a Half-Axis – K. S. Mamii and D. D. Mirzov	1013	1330
The Absolute and Uniform Convergence of Generalized Fourier Integrals – F. V. Srumova	1016	1333

Engl./Russ.

Volume 7, Number 8 August, 1971

ORDINARY DIFFERENTIAL EQUATIONS

The Existence of Conditionally Periodic Solutions of Differential-Equation Systems – Yu. N. Bibikov 1021 1347

Expansion of Solutions of an Autonomous System in a Special Case of Stability – É. I. Grudo 1028 1357

The Sign of Green's Function for a Difference Problem with Combined Boundary Conditions – V. Ya. Derr 1036 1368

Existence Theorems for and Uniqueness Classes of Solutions of Functional Equations with Heredity – L. A. Zhivotovskii 1043 1377

The Differentiability of a Mapping Describing Isochronous Surfaces in a Linear Time-Optimal Control Problem – Yu. N. Kiselev 1050 1385

Local Behavior of Solutions of Ordinary Differential Equations – L. B. Klebanov 1056 1393

Differential Pursuit-Evasion Games in Systems with Time-Lag – A. B. Kurzhanskii . . 1060 1398

Extistence of a Local Invariant Surface in the Absence of a Linear Approximation – V. L. Lubikh 1069 1410

Almost Periodic Solutions of a Class of Systems of Stochastic Differential Equations – G. A. Razin 1077 1419

PARTIAL DIFFERENTIAL EQUATIONS

A Boundary-Value Problem for a Mixed Fourth-Order Equation – F. Sh. Baiguzin 1085 1429

The Boundary-Value Problem for a First-Order Elliptic System in the Plane – V. S. Vinogradov 1093 1440

The Isomorphism of Generalized Hölder Classes – M. L. Gol'dman 1100 1449

Estimates, Close to the Boundary, of Generalized Solutions of Certain Classes of Quasilinear Second-Order Elliptic Equations – A. D. Dzhabrailov 1108 1459

Jeffrey's Theory of Parabolic Potentials. III – L. I. Kamynin 1118 1473

A Mean-Value Formula for Eigenfunctions of a Second-Order Self-Adjoint Elliptic Operator – E. I. Moiseev 1131 1490

Parabolic Equations with Nonlinearities that Are Not of the Power Type – P. E. Sobolevskii and A. I. Yasakov 1141 1503

Integral Inequalities for Multiharmonic Functions in an n-Dimensional Region in the L_p Metric with Applications – A. S. Fokht 1148 1512

BRIEF COMMUNICATIONS

A Remark Concerning Blokh's Theorem – V. V. Dyakin 1154 1520

Integral Curves of a Dynamic System – R. M. Evdokimenko 1156 1522

Separatrices and Limit Cycles of a Differential Equation – L. I. Zhilevich 1159 1525

Properties of Solutions of a First-Order Differential Equation – G. S. Krechetov 1162 1528

The Norm of an Element as a Regularizing Functional – O. A. Liskovets 1165 1531

An Initial-Value Problem for Differential Equations with Time-Lag – Z. B. Seidov 1168 1534

Volume 7, Number 9 September, 1971

ORDINARY DIFFERENTIAL EQUATIONS

Some Solutions of Systems of Ordinary Differential Equations with Polynomial Right Sides. I – L. A. Beklemisheva 1173 1547

Critical Points in the Plane for the Case of Two Nonzero Roots – V. A. Bogachev 1184 1560

Absolute Stability of Systems of Direct Control in Two Critical Cases – L. I. Burganskaya 1191 1568

The Generalized Cauchy Problem for a System of Differential Equations Not Solved for the Derivatives – A. N. Vityuk 1197 1575

A Maximum Principle for General Discrete Systems – R. Gabasov and M. L. Gusakova 1202 1581

	Engl.	Russ.
Optimization of Controlled Systems with Bounds on the Controls and the Phase Coordinates – M. I. Gusev and A. B. Kurzhanskii	1210	1591
Branching of Solutions of a Boundary-Value Problem for an Ordinary Second-Order Differential Equation – D. P. Zeragiya	1219	1603
A Boundary-Value Problem for a System of Ordinary Differential Equations – M. A. Kakabadze and I. T. Kiguradze	1225	1611
PARTIAL DIFFERENTIAL EQUATIONS		
Fourier–Bessel Series for Weighted-Integrable Functions – M. L. Gol'dman	1230	1617
The Conjugation of Nonstationary Abstract Linear Differential Equations – V. I. Korzyuk and N. I. Yurchuk	1239	1629
The Solvability of Linear Differential Equations in Spaces of Analytic Functions – Yu. F. Korobeinik and T. I. Demchenko	1246	1639
The Straight-Line Method for Nonlinear Elliptic Equations of Arbitrary Order – A. D. Lyashko	1253	1649
Neumann's Problem in Piecewise-Smooth Regions – E. I. Moiseev	1258	1655
The Stability of the Eigenvalues and Eigenfunctions of a Sturm–Liouville Problem – P. K. Senatorov	1266	1667
Limit Theorems Concerning the Existence of Integral Surfaces Adjoining Singular Integral Elements – P. V. Sokolov	1270	1672
Properties of Solutions of Second-Order Parabolic Equations with Dissipation – S. D. Éidel'man and F. O. Porper	1280	1684
BRIEF COMMUNICATIONS		
Properties of Solutions of a Problem Involving Losses in the Case of Periodic Intensity – B. V. Gnedenko and I. P. Makarov	1289	1696
Conditions for the Synthesis of Linear Controls – V. I. Zubov	1292	1699
Determination of Stability of Periodic Flows by Means of Generalized Characteristic Numbers – I. G. Kroshko	1294	1701
Stability in the Critical Case of Purely Imaginary Roots with Internal Resonance – A. L. Kunitsyn	1297	1704
Stability of Quasisolutions of Equations with a Closed Operator – O. A. Liskovets	1300	1707
A New Method of Solving the Biharmonic Equation – R. S. Mel'nik	1303	1710
Periodic Boundary-Value Problems and Riesz Bases – V. S. Mokeichev	1306	1714
Algebraic Solutions of Abel's Differential Equation – A. Z. Samuilov	1312	1721
Equiperiodicity of Systems of Two Differential Equations – L. P. Cherenkova	1314	1723

Volume 7, Number 10 October, 1971

	Engl.	Russ.
ORDINARY DIFFERENTIAL EQUATIONS		
Some Solutions of Systems of Ordinary Differential Equations with Polynomial Right Sides. II – L. A. Beklemisheva	1319	1739
Stability in the Large of the Zero Solution of Certain Nonlinear Fifth-Order Differential Equations – L. I. Burganskaya	1328	1752
The Structure of Solutions of a System of Two Differential Equations. I – É. I. Grudo	1338	1765
The Solvability of Certain Boundary-Value Problems for Ordinary Second-Order Differential Equations – V. V. Gudkov and A. Ya. Lepin	1349	1779
Optimization of Controlled Systems with Restrictions. II – M. I. Gusev and A. B. Kurzhanskii	1357	1789
Solutions of the Briot–Bouquet Equation with a Constantly Deviating Argument when the Characteristic Equation Has Simple Roots – N. P. Kovalevskii	1366	1801
Singular Separatrix Cycles of a Quadratic Differential Equation Having a Straight-Line Solution – I. S. Kukles and I. G. Rozet	1374	1813
A Matrix Method in Oscillation Theory – V. N. Laptinskii	1379	1819
Construction of Differential Equations for Optimal Motion to a Given Manifold – R. G. Mukharlyamov	1384	1825

Eng./Russ.

PARTIAL DIFFERENTIAL EQUATIONS

The Principle of Decomposition of Nonself-Adjoint Partial Differential Operators – I. I. Golichev 1391 1835

A Generalized Localization Principle for Spectral Expansions Related to the Beltrami Operator – G. A. Il'yushina 1398 1845

Boundary-Value Problems for I. G. Petrovskii-Correctly Posed Equations with Positive Genus in the Plane – F. G. Selezneva and S. D. Éidel'man 1404 1854

The Stability Coefficient of a Solution of Dirichlet's Problem for the Equation $\operatorname{div}\{k(x)\operatorname{grad} u\} = -f(x)$ 1414 1869

FINITE-DIFFERENCE EQUATIONS

Difference Schemes for the Solution of Incorrectly Posed Abstract Cauchy Problems – A. B. Bakushinskii 1419 1876

Sufficient Conditions for the Stability of the Bubnov–Galerkin Method Applied to a Boundary-Value Problem in Hilbert Space – M. A. Veliev 1427 1886

BRIEF COMMUNICATIONS

Stability of Homogeneous Linear Differential Equations with Time-Lag – M. I. Artem'ev 1434 1895

Reducibility of a System of Two Differential Equations to Normal Form – Yu. N. Bibikov 1438 1899

Application of the Lyapunov-Function Method for the Investigation of Oscillations in Linear Systems with Delay – R. E. Ginzburg 1442 1903

Asymptotic Behavior of Solutions of Invariant Linear Systems of Differential Equations – M. V. Zaretskii 1445 1906

The First Boundary-Value Problem for a Loaded System of Quasilinear Parabolic Equations – A. D. Iskenderov 1449 1911

Continuability of Solutions of Equations with Delay – O. I. Kyun 1452 1914

Existence and Uniqueness of a Solution of a Boundary-Value Problem – A. V. Finkel'shtein 1456 1918

Volume 7, Number 11 November, 1971

ORDINARY DIFFERENTIAL EQUATIONS

Continuous Processes of the Newton Type – Ya. I. Al'ber 1461 1931

Some Solutions of Systems of Ordinary Differential Equations with Polynomial Right Sides. III – L. A. Beklemisheva 1472 1946

Stability in the Large of the Zero Solution of a System of Three Differential Equations – I. G. Egorov 1482 1960

Limit Cycles of an Autonomous System – E. D. Zhitel'zeif 1487 1967

Assurance of the Accuracy of a Transmitted Signal in the Presence of a Constantly Acting Disturbance – S. T. Zavalishchin 1492 1974

The Limit Spectrum of Systems of First-Order Differential Equations with Slowly Varying Coefficients – L. B. Zelenko and F. S. Rofe-Beketov 1498 1982

Formulation of Boundary-Value Problems with Infinite Defect for Differential Equations with Deviating Argument – Yu. A. Gershman and A. D. Myshkis 1506 1992

Asymptotic Properties of Solutions of a Boundary-Value Problem for an Ordinary Differential Equation Containing a Small Parameter – B. G. Razumeiko 1510 1998

The Closure of Separatrices of a First-Order Differential Equation – I. G. Rozet 1517 2007

The Existence of Solutions of Differential Equations with a Time-Lag Depending on the Solution – V. P. Rudakov 1522 2013

The Boundedness of Solutions of a Second-Order Differential Equation with Periodic Coefficients – M. S. Saburov 1527 2019

PARTIAL DIFFERENTIAL EQUATIONS

Coercive Solvability of a Boundary-Value Problem for a Second-Order Differential Equation in Banach Space. I – V. P. Anosov and P. E. Sobolevskii 1535 2030

Stability of a Discontinuous Solution of the Dynamics Equations for a Continuous Medium in Connection with the Combustion of Solid Propellant – S. K. Aslanov 1545 2045
Existence of a Point of Regularity for and the Spectrum of a Self-Adjoint Second-Order Differential Operator – I. I. Golichev 1549 2051
A Generalized Localization Principle for Spectral Expansions Related to Beltrami's Operator in an Arbitrary N-Dimensional Region – G. A. Il'yushina 1554 2058
A Class of Singular Elliptic Operators – I. A. Kipriyanov 1560 2066
Estimates for the Approximate Solution of Cauchy's Problem and the Straight-Line Method – M. N. Yakovlev 1569 2078

BRIEF COMMUNICATIONS
The Application of Characteristic Indices of the m-th Order in the Investigation of Asymptotic Stability – A. Azamov 1575 2086
Explicit Solutions of Certain Difference Approximations to the Heat-Conduction Equation – A. S. Dolgov 1579 2091
An Estimate of the Jump of the Highest Index of Invariant Linear Systems with Small Perturbations – M. V. Zaretskii 1582 2094
Solutions of the Briot–Bouquet Equation with a Constantly Deviating Argument when the Characteristic Equation has Multiple Roots – N. P. Kovalevskii 1586 2099
Asymptotic Stability of a System of Two Differential Equations – G. S. Krechetov 1589 2103
A Qualitative Investigation in the Large of a Second-Order System – A. V. Marinchuk .. 1592 2107
The Asymptotic Solution of Ordinary Second-Order Differential Equations – B. I. Medvedev 1595 2111
Boundedness of Solutions of Linear Differential-Difference Equations with Variable Coefficients in Banach Space – A. I. Dashevskii 1598 2115
Construction of Switching Curves in the Case of an Isochronous Family of Fused Solutions – L. P. Cherenkova 1600 2117

LETTERS TO THE EDITOR
Corrections to Articles Which Previously Appeared in This Journal – I. I. Bezvershenko and A. F. Goryunov 1602 2120

Volume 7, Number 12 December, 1971
